

ELMO

Overhead Projectors

HP-A305 SOLAR DELUXE

ELMO brings overhead projection of computer images to the big screen when used with a LCD panel.

The powerful "SOLAR DELUXE" model projects computer generated color text and graphics onto a projection screen even in a bright room. It's high light output (7,300 lumens) also makes it ideal for use in auditoriums. The "SOLAR DELUXE" gives you amazingly clear and bright images for the most effective presentations.

Aperture size	285x285mm(11.2x11.2")
Body & Arm	Metal-body with fold-away arm
Brightness control	Hi-Low brightness control built-in.
Cooling	Forced-air control
Dimensions	Folded: 270x385x556mm(10.6x15.2x21.9") Assembled: 740x385x450mm(29.1x15.2x17.7")
Image size	1.0m-4.0m(3.3ft-13.1ft)
Light output	7,300 Lumens
Location pins	Provided
Magnification	1m(x3.5)-4m(x14)
Pen tray	Provided
Power consumption	750W
Power cord	2.5m(8.2ft) 2.5m(8.2ft)
Power source	AC single phase, 50/60Hz
Projection distance	1.2m-4.6m(3.8ft-15.1ft)
Projection lamp	575W Metal Halide-lamp
Projection Lens	265-305mm(10.4x12.0')variable focus type lens
Projection materials	Transparency and roll
Safety interlock switch	Built-in
Safety thermal cut-off switch	Built-in
Tilting angle adjustment	Up to 20
Weight	12.5kgs(27.5lbs)
Writing roll attachment	Attachable(Attachment if optional.)
